Engineering Change Order (ECO) Report

1. Description of Change:

The sensor BME280 has been identified as obsolete/EOL (End-of-Life) as per STMicroelectronics Customer Notification Letter (PCN Reference: ST-PCN-2026-1187). It has been replaced by the BME688 sensor in the inventory.

2. Affected Part:

- Manufacturer Part Number: BME280
- Package: LGA-8
- Status: Obsolete

3. Replacement Part:

- Replacement Part Number: BME688
- Datasheet: <gs://eco-outputs/datasheets/BME688.pdf>

4. Justification:

End-of-life sensor product line consolidation by manufacturer.

5. Affected Repository and Software Changes:

- Target Repo: <https://github.com/shawnsong07/pcn-orchestrator-2026>
- Modifications: Created/updated 'hal_bme280.h' to redirect software calls to or notify replacement BME688.
- Pull Request: <https://github.com/shawnsong07/pcn-orchestrator-2026/pull/26>
